About This Game

Detective Inspector Hector – the hard-nosed, soft-bellied lawman of Clappers Wreake, a town that took the “Great” out of Britain. He’s violent, drunken, and has a taste for all things criminal, corrupt, or smothered in curry.
All 3 episodes available now - get the full season!

- **Episode 1 – We Negotiate with Terrorists:**

When a hostage crisis erupts in the centre of Clappers Wreake, Hector has to make a choice: carry out a terrorist’s demands, or let innocent hostages die. Hector’s still on the fence.

- **Episode 2 – Senseless Acts of Justice:**

Hunting a psychopath, Hector is pulled down a twisted trail of meat, sin, sleaze, and more meat.

- **Episode 3 – Beyond Reasonable Doom:**

Can Hector escape his squalid demise and stagger back to Clappers Wreake to save it from extinction?

I'm in the body of a rather attractive female strapped to a couch. If I were anally retentive I'd say that enjoying the helplessness of women is not very appropriate in a politically correct fishbowl.

But, hell, I don't care.. eazy game recommended and very eazy achievements. This is a stunningly amazing piece of DLC, I came across issues with it the first time I actually purchased it when it was on discount, my issue was that I had the Lua 5.2 installed onto my system why TS2014 only supported Lua 5.1 and due to the code changes the train didn't want to start, but I solved it by downgrading. This is truly stunning, the amount of detail that is put into it, the controls and the realism, is just amazing. This is a third party DLC, virtualRailways did an amazing job with it, I can only recommend, but only at low price!

I rate this 10 out of 10.. A short puzzle game, it was fun and I enjoyed it. took a chance at .99 but this controls poorly, the animation is janky, the enemy design and patterns are boring. Feels like a student project - they successfully got it to run with some basic mechanics thrown together, but this is not a solid game.. A point and click adventure game that started on the iPad but been ported to the PC really well. Its a point and click puzzle/adventure game with a heavy music influence and it has among the best game soundtracks I have heard so far. While not being the hardest game ever it is still challenging and has a lot of humour in it so enjoyed all my time spent in it. Its a game I'd recommend pretty much everyone to at least try as is an experience I'd want to share.

Mostly storyline achievements but some harder to find specific ones thrown in. I'd recommend a glance at a guide to find them all as you could very easily miss a few of them. There are also two achievements tied to not altering the time while playing the game (which makes sense once you have played the game) and one for....altering the time. Would recommend beating the game while only using real time or in-game means to beat the game and get the time-altering achievement as your last thing.

Time to 100%: ~4½ hours

I swear I was drunk when I got this. I really wish Steam would change its rating system, this yes or no choice is really too limited. I have a hard time to say a clear recommendation. The first run was awful, I got the worst trip. But 2nd and 3rd run were ok. The music is a bit... boring. The characters seem at the same time extreme, all are a bit psychopathic, if you ask me.

Still, a bit too few choices, compared to other Dating Sims the choice of characters is not sooo good. If I had to give a number rating I'd say 6.5 of 10. I got the game for 6 bucks, so for that reduced price I would say, it is ok to buy. Don't expect the greatest Sim ever, but it surely was ok.. The music is the only cool thing about the game. An OCD impulse is what drove me to buy it when I was bored, and I think it was a waste of the money, to be honest.... Ok the bad; the game is incredibly buggy, cut-scenes are very choppy if they work at all. The game does tend to crash and one chapter with Jane at the waterfalls would not load for me at all and I had to start over. The good it is a really fun game when it isn't being buggy. I enjoyed the puzzles and suffered through the crashes and the forced replay because I did enjoy the story and the puzzles. I would love to see a sequel with updated technology.. This game could be good for a phone but not for a PC.. Awesome tower defense game. Great polish and mechanics.. I am a big fan of puzzle games. I have spent many consecutive days playing similar games, such as Text/Word Twist.

This game as it stands now is buggy and there are many things the developers missed. Here are a few things I've noticed:

- 1) As per usual, there are words missing that should be listed, but this is a frequent occurrence for games like these.
- 2) Once you complete a puzzle, the words you missed are never revealed.
- 3) The words are not listed alphabetically. It is nearly impossible to logic your way into completing the puzzle and to figure out which words you're missing.
- 4) I had to quit several times when I was unable to type any letters or click them to enter a new word.
- 5) There is no way to save your progress (as far as I can tell).

Unfortunately there are no good alternatives to this game on Steam, but if you're feeling an urge to play this, don't pay the \$5 or play it for free online.. The Good:

- Gameplay: The ability to speed up and slow down both the ball and your paddle individually adds a unique twist to the gameplay. The ball physics seem pretty good.
- Variety: There are power ups and you can hold two at a time. There is pretty good level/enemy variety.
- Genre/Theme: There really aren't too many games quite like this. There is an old sega genesis game called Devilish that this reminds me of in the sense that it's a break-out style game with a horror theme.

The Bad:

- Art: The in-game art is good, but the cutscene art could really use some polishing.
- Writing: The writing is also pretty bad as some other reviews have noted. Often better to skip through...

All together a decent game especially considering it was made by one guy.. The game doesn't even launch!
